Introduction

Some people call them Angels, others call them guardian spirits, and still others use the name daimon, djinn, or demon (for a fallen Angel). Some Angels appear with wings; others have the form of a lion or other bird or beast. According to many sources, there are nine or ten orders of Angels. The most common are these: Seraphim, Cherubim, Thrones, Dominions, Virtues, Powers, Principalities, ArchAngels, and Angels. Some lists include Hosts. Angels are sometimes called Watchers and Holy Ones.

You may recognize a church hymn that begins:

*"Ye Watchers and ye Holy Ones,
Bright Seraphs, Cherubim and Thrones,
Sing their praises!
Alleluia!"*

Or these lines from Shakespeare's Hamlet:

*"Angels and ministers of grace defend us!" (Act I, scene 4)
"And flights of Angels sing thee to thy rest!" (Act V, scene 2)*

You don't have to practice any particular religion, or any religion at all, to establish a relationship with your guardian spirits. Calling upon Angels is as simple as this:

1. First you recognize that Angels exist.
2. Then you identify an Angelic spirit or energy for which you feel an affinity.
3. Then you praise that Angel, as you would praise the Lord, the Virgin, or any object of your prayers.
4. Only then do you ask for help.
5. Give thanks for whatever help comes.
6. Finally, watch for signs that your call has been answered.

While the Bible only names three Angels (Gabriel, Michael and Raphael), plenty of Angels are mentioned (the word Angel or its derivatives is used about 300 times in the Bible). Other sources list the names of hundreds of Angels, along with their natures and their responsibilities. Many holy books tell us that Angels are appointed to watch over us, and our literature and entertainment

are filled with examples of Angelic presence.

This interpretation focuses on the Angels that are most prominent in your life. You will learn who they are, what they govern, what they can do for you, and how they work together. You will also learn ways to become more aware of them - ways to tune in to their protection and their messages. We each have at least one Angel or daimon who is always with us, who never deserts us, and who offers constant creative inspiration, if we only will listen. Today you can learn more about how to listen to your unique set of Angelic guides.

As you read this interpretation, you will again and again find indications of specific ways to call upon Angels quickly and safely through prayer and meditation. I have called these activities meditations, but I personally also see these as prayers and I have included affirmations - short positive statements of personal intention - for your use. As you practice working with your Angels, you will become adept at contacting them in an instant when you most need their support and help. Since they are always around you, calling Angels is never a difficult accomplishment. However, you may not have any experience at calling Angels! Now, as you read and gain some understanding through this report, you can tune in directly to specific Angels for specific aid.

The hallmarks of true Angelic presence are these:

1. The messages are always loving, positive and clear.
2. Angelic messages and support leave you feeling confident, and certain.
3. Angels are not summoned, they are sent. Yet through visualization and meditation, you can become aware of their eternal dwelling in and around you.

In keeping with the qualities of Angels, I encourage you to listen to your Angels. Call upon them for guidance, but do not intentionally summon them. Instead, allow them to enter your presence by meditating on an Angelic image, wrapping yourself in the feeling of well-being and safety that you have experienced in the past, and patiently allowing yourself to fill with Angelic peace.

Angels of the Cardinal Directions

The Angels of the directions may show up in your interpretation later in this report. If they do, by reading this section you will be able to recognize their power. If not, you can refer to this report and consider these four possibilities in your life when you travel in their direction, when you are planning a garden, or when you walk outdoors.

East - Michael

The American Indians associate the eagle with the East Wind. The eagle has remarkable vision and can see things in perspective, as well as identify tiny objects on the ground far below. The East is related to the human kingdom, and the eastern wind brings spiritual considerations into your mind. It is in your nature to determine what you do with any gift, any task, or any burden you have been given. The Angel of the East can help you seek the higher spiritual meanings of everything you experience.

Through meditation, you can cultivate choices in any situation. In meditation, allow your mind to seek three possibilities. Some of the choices may seem weak or unacceptable to you, but they are still choices. Initially you may have simply said no to such an option. Some of the choices may seem strong for one reason or another. Michael can help you determine which choice is the best for you to follow. Occasionally you will find that your meditation leads you back to the choice you initially refused. What seemed unacceptable at first sometimes turns out to be the best path after all.

If you feel drawn to the Angel Michael, you may want to incorporate an early morning ritual into your daily life. Stand with your face to the sun to gather in energy for your day's activities. This is effective even before the sun rises.

North - Uriel

The buffalo is the animal the American Indians associated with the North Wind. Buffalo medicine was among the most powerful resources the Indians had, just as the buffalo was their primary source of food, warmth, and everything they needed. The North, then, is associated with material sustenance. The power of the North lies in receiving that which we need. To cultivate the capacity to receive, we need to cultivate the mind.

Through meditation, you can cultivate your mind by developing flexible mental boundaries. The mind can take you wherever you wish to go. Through meditation, you can learn to identify the meaning behind simple facts, and the application of the principles of love to each fact you discover. In addition, the North is associated with the quiet, even dormant quality of mind. You may also develop some skill in allowing your mind to rest quietly, so that insight may arise.

If you feel drawn to the Angel Uriel, you may want to incorporate prayers or acts of thanksgiving into your daily life. By

recognizing the bounty in your life, you also enhance it.

West - Gabriel

The American Indians associated the grizzly bear with the West Wind. This strongest of all bears represents Gabriel, a very powerful Angel. The power of the west lies in teaching you about self-sufficiency. The power of the grizzly is to teach patience. This animal seldom hurries for anything.

The West relates to the mineral kingdom. Through your meditation, you may learn the value of certain gems and minerals to heal mental or physical ills. Each gem has existed long before you thought of embarking on your present physical existence. According to Kenneth Meadows in Earth Medicine, the senses can be developed through the use of peridot (vision), onyx (hearing), carnelian (touch), topaz (taste), and jasper (smell).

If you feel drawn to the Angel Gabriel, you may want to end each day with a few minutes of meditation in which you consider the activities of the day, and seek guidance through dreams.

South - Raphael

The animal the American Indians associated with the South Wind was the mouse. This tiny creature has profound wisdom all its own. The mouse perceives the world on a very small scale. This animal reflects your capacity to relate to things and people by getting closer to them - close enough to touch. Often we engage emotional feelings when we are close enough to physically touch another person.

Raphael can aid you in your meditation by bringing you more in touch with your own body, and with your immediate surroundings. The South Wind emphasizes self-awareness as a foundation for giving to others. Out of self-awareness comes compassion for others. As you cultivate self-awareness, you also begin to trust the Universe to provide whatever you need to become that compassionate being you glimpse in your meditation.

If you feel drawn to the Angel Raphael, you may want to incorporate an activity into your daily life that you do just for yourself. For example, daily bathing offers a private time to allow healing energy to wash over your body.

Your Most Powerful Angelic Connections

Neptune

The planet Neptune, by its sign, house placement, and aspects, reveals the Angels that most strongly support and influence your life. You always have Angels around you, and you may have identified specific Angels from time to time throughout your life. Some of the Angels mentioned in this report have familiar names, some have unfamiliar names, and there are many Angels without names. You may find that the familiar Angels seem to have more power. This is because they have been invoked many times by many people, and therefore they have more apparent power. Your personal Angels, even if they have no names, are powerful to you, and they help you focus your individual energy more effectively.

Neptune is in Sagittarius

With Neptune in Sagittarius, you are part of an entire generation of people who share in the influence of the Angel Adnachiel.

As a ruling Angel in the order of Angels, Adnachiel can empower you to bring the creative energy of love into your life, and into the lives of people around you. Although sources differ, the power of this Angel is often associated with the green healing energy of the heart chakra, and with the emerald gem.

The single attribute most often associated with Angels is the power of Love. When you call upon Adnachiel, you are drawing to you the infinite power of love, as it is associated with spiritual wisdom. It is not that you feel yourself to be infinitely wise, but rather that you can associate with that level of wisdom and thereby benefit.

Meditation for Adnachiel

Meditation requires focus and practice in order to become familiar and easy to do. Yet it requires nothing that you do not already have in the way of clothing, equipment, or mental faculties.

1. Wear loose clothing that will keep you warm or cool, depending on the season and conditions.
2. Seat yourself comfortably, keeping your back erect.
3. Place your hands on your thighs so that your upper arms are vertical and the position feels relaxed. You can adjust your hand position as needed.

4. Gaze at the floor about six to eight feet in front of you, so that your eyes are open, but looking down.
5. Breathe in and out slowly. Follow your breath as it goes out, and feel it as you inhale. Allow yourself to notice any sensations in your body, and any sounds in your environment. Do this for a minute or two.
6. Now, as you continue to breathe steadily, choose something or someone for whom you feel compassion. It could be a puppy or kitten who needs your tender care, or it could be an acquaintance who is suffering through an illness or loss. You may even feel compassion for the place where you live, a natural wonder, or the earth itself.
7. Focus on the object of your compassion. Continue to breathe steadily for a few minutes. Think about what in this object or person inspires your compassion.
8. Take time to relax into your feelings about this person or thing.

As you practice this meditation, you will find that your life is rich with reasons to feel and express compassion. You will remember subtle details about the person. You will recall times when you felt better being around him or her.

One outcome of this meditation is that you develop a more profound awareness of what compassion feels like to you. Later, when you are out and about, you can revive this feeling quickly and easily whenever you need it.

Neptune is in the 2nd Decanate of Sagittarius

Aquila - Exploration

Aquila the Eagle is the constellation of the second decanate of Sagittarius. Soaring high in the sky, the eagle uses its acute eyesight to explore vast areas. Exploration is the quality emphasized here. You can use your intellect to consider more than the immediate conditions around you. Perception of the larger picture helps you to raise your desires to an ideal plane. Concrete realization of desires occurs when your own perceptions are combined with inspiration from your Angels.

Affirmation

I balance my self-contained nature by reaching out to others.

Neptune is in the 6th House

With Neptune in the sixth house, your Angelic focus is on service to others, and also on your own health. Throughout your life, you notice that powerful energies intervene at opportune times to help you find the health care you need. Even when you are not in perfect health yourself, you find time to assist others in their lives. In fact, your own troubles are often the source of wisdom you use to help other people.

You understand other people through your intuition. You can often sense what other people are searching for, and you can find ways to guide them without pushing. You have experienced patient help from other people and you are able to offer patience in your work.

A weakness lies in your tendency to be overly sensitive. You can find fault with others, perhaps because you find fault within yourself. Remember, your Angels are never focused on your negativity or flaws. They exist to support you in identifying and using your strengths.

You have healing power that comes from your spiritual base. Angels surround you, and you draw on their energy, even if you don't realize it.

You sometimes wonder if you will ever be able to do any effective work. However, your psychic sensitivity turns out to be a boon in whatever work you do. Your work succeeds best if it incorporates an artistic touch. You can show others how to use their artistic or healing power.

Another area of work that may attract your interest is marketing and advertising. You are adept at finding just the right words to express the value of a product or service, and you can put a positive spin on any sales situation. When you see into other people's motivations, you can sell them on your idea or product easily. As long as your motives are ethical, your Angels will support your efforts. Stray into the seamy side of commerce and your Angels will throw up roadblocks to indicate you have taken a wrong turn.

The artist Georges-Pierre Seurat and author Percy Bysshe Shelley had Neptune in the Sixth House.

Angels in Your Daily Life

The Ascendant

The Ascendant in your chart is the sign rising in the East at the time of your birth. As such it also reflects the way your personality rises new and refreshed to greet each day. The Angel of the Ascendant also rises each day to assist you in renewing your personality and your personal resolve.

The Ascendant is in Cancer

With the Ascendant in Cancer, you gain strength from the Angel Muriel who provides emotional succour. The quality that shines forth freely in your personality is your shifting moods. Coming from an emotional space of intense vulnerability, you mask your feelings whenever possible, and you design protective measures to keep you from being hurt. Muriel can help you to become more open, while maintaining a reserve of safety.

You also demonstrate sentimentality. You wax nostalgic for the past and you probably have a collection of memorabilia from your adventures. You are attached to possessions, once acquired. You occasionally feel like an orphan. Your Angels help you to feel like you belong where you find yourself.

Your magnetic personality sometimes attracts the wrong people, although you have learned to sort out the more desirable friendships and work to develop them. Here again, Muriel offers protection from harmful influences and guides your attention toward positive, creative relationships.

You are readily responsive to other people's moods. Your psychic ability allows you to sense other people's feelings. One problem is developing clarity about what feelings are your own, and which ones are coming from other people. Once you gain clarity in this regard, you become more responsive to other people. You find you can often help them with just a few well-considered remarks. Your active imagination helps you find just the right delivery.

The Midheaven

The Midheaven in your chart is associated with an Angel who helps you understand yourself, and who is activated at specific times to bring the necessary understanding at moments of great transition or transformation.

The Midheaven is in Pisces

With the Midheaven in Pisces, you establish yourself in the world with the aid of the Angel Barchiel who Relieves burdens of guilt and sorrow. You know that your greatest skill lies in sitting aback, watching what is happening around you, and waiting to learn how problems and solutions develop without your intervention. Your psychic ability tells you when to wait and when to take action. You also appreciate the relative speed of time. You know things seem to move more quickly or slowly, depending on emotional factors.

You have a strong desire for simplicity in your life. Your psychic sensitivity makes simplicity a must. As you opt for basics on the material level, you find that you can keep yourself out of the raging flood of emotional energy that other people create. This doesn't mean that you cannot become successful and famous in your career. It means that you don't complicate your life with side issues.

How do you personally perceive signs that your prayers have been answered, or that your Angels have heard you? When you aspire to greater spiritual understanding, you find that you have to let go of some of the simple assumptions you made early in life. Your Angels help you to formulate a spiritual perspective that incorporates the necessary details of daily life, but reduces the number of absolute beliefs that can hold you back from personal progress.

In addition, you find that your capacity to manage crisis situations improves. You are able to handle problems in your children's lives, new relationships in your own life, and situations with co-workers, and other associates. You perceive your personal needs to be less compelling, and your empathy for others is translated into compassionate support. The combination of the Pisces Midheaven and the Angelic energies of Barchiel is indicative of a career through which your sympathy for others can be used effectively. Examples include nursing, counseling, or psychic work.

Meditation for The Midheaven

1. Sit or kneel in a comfortable posture, back erect.
2. Begin by breathing in and out, settling into your posture and gazing slightly downward.
3. As you breathe, allow awareness of compassion to fill your mind.
4. Develop a rich, vibrant feeling of what sympathy looks like, feels like, and sounds like. Consider all your senses as you build awareness.
5. As you do this meditation, notice how your attitude toward compassion may shift or become even more defined.
6. Do this meditation for a few minutes.
7. When you are finished, write about your impressions for future reference.

The Midheaven is in the 2nd Decanate of Pisces

Your fear of pain sometimes causes you to become indifferent to it. You must accept your suffering sooner or later, and your Angels create the inner space for you to do so. Then your compassion for self and others blossoms and strengthens, dissipating the pain in the process.

Neptune is the Ruler of the 10th House

As you cultivate your personal Angels, you discover that your apparently public life has served as a cover for your intense concentration on yourself and your personal goals. You have taken a serious approach to career and social activities, knowing that these lead directly to honors, reputation, and personal gain. Your career flourishes in part because you are able to sense what other people are thinking and feeling. Then you put that information together with what you desire.

Beneath the outer trappings of work and social activities, you have a deep connection to the psychic arts. If you become discontented with life, you may take impractical or devious steps to change it. Your Angels are always present to guide you in an idealistic yet practical philanthropic direction. They show you the path of compassion and inspiration.

Pisces is a water sign. Your meditation can be aided by placing one or more containers of water around you. Often you can relax your mind while bathing, as the movement of water helps to the flow of feelings of empathy and compassion. The watery movement, combined with chanting, reading, or simply thinking about a mantra, can help you let go of any destructive thoughts. You may see through apparent reality to a subtler level of psychic experience in this way.

The Sun

The Sun is the center of our solar system, and symbolizes the spiritual center of your being. It reflects your individuality as you express it in this lifetime, and it also expresses your spiritual potential for this lifetime. The Angel closely associated with your Sun sign can help you to be the best, happiest person possible.

The Sun is in Taurus

With the Sun in Taurus, you gain strength from the Angel Asmodel who instills patience. Desire, whether it be ordinary physical desire or elevated spiritual aspiration, works directly through your Sun sign, and desire is therefore a potent force in your life. Once ordinary human desire has been elevated to the level of spiritual aspiration, you then have the potential to choose your direction through the expression of your will.

Often you find that the results of desire are partly beneficial and partly not so positive, or possibly even destructive. You believe you know what you want, but when you get the result, you are not entirely pleased. As you experience spiritual aspiration, you find that either your desires change or your attitude changes, and you like the results of your actions better.

You also benefit from the guidance of the Angel Aniel. Call on Aniel to help you transcend ordinary passions so that you can experience spiritual love with a partner, and also divine love.

Interacting With Angels

While you are going about your daily activities, the Angels around you are interacting according to your unique personality, desires, and needs. Imagine that you are on stage, acting out your role in life. Behind the scenes your personal Angels are arranging what you need, discussing how you feel, and possibly even debating the best way to help you. You don't have to worry about their actions because they continue to act in your best interests even when you are unaware. The following aspects indicate how your personal Angels work for you throughout your life. If you have no aspects to Neptune, that circumstance is also discussed. As you work with your Angels, you will become more and more aware of these themes and what they mean for you.

Jupiter is Trine Neptune

With Jupiter Trine Neptune, you experience a gentle philosophical confluence between Zadkiel and Tamiel. When the Angel of Mercy and the Angel of Primordial Energy meet, you understand the depth of happiness that you can experience. You have had glimpses of this happiness in the past, and perhaps even extended periods when you felt blissful. Now you have a tool to make the interaction between these Angels a part of your daily life.

Through your meditation, you can cultivate a sincere love of humanity. Your Angels guide your thoughts toward compassion and integrate your feelings with the knowledge that you need to express compassion effectively in everyday life.

Naturally idealistic, now you can focus on your idealism and make some of those goals become reality for you and for others. As you listen to your Angels, you find that ideas come to you easily and naturally. Even when you don't know the mechanics for a particular action, you sense the right activity and then either learn how to do it, or find people who know.

You are impressionable. This can be seen as a weakness until you learn to manage the impressions you receive. Initially, when you have no filtering system, you receive impressions from everyone and everything. Part of developing the mind in childhood relates to developing structures and organization for feelings and sensations. Even as an adult, you continue to define and refine your mental structures. Eventually you realize that impressions from other people translate almost instantly into meaning for you.

Another possible weakness is a general lack of muscle tone. It's important for you to find an exercise program that works for you. It can be as simple as a walk every day, or as complex as a serious weight or strength training program. The idea is to aim for some exercise each day, and some activity that builds and maintains muscle strength.

Expand your interest in mysticism through study of one or more subject. Pursue connections between your religious beliefs and your mystical thoughts. Your Angels will fill in the blanks in what you read or study. Meditation allows your mind to sort through what you have taken in. Meditation also allows your Angels to speak directly to you and provide additional insights.

Wisdom comes to you through the association of Zadkiel and Tamiel. Your dreams provide a ready source of inspiration because they put the energies of your Angels into pictorial, auditory, and sensory form.

Mars is Square Neptune

With Mars Square Neptune, you experience a dynamic, challenging interaction between Samael and Tamiel. Samael is the Angel of Temptation. The gift in this Angelic energy is the power to market yourself and your ideas to others. Tamiel is the Angel of Dreams. Here you find the words and images, the touch and smell that entice others to buy or buy into your schemes.

Spirituality provides a regulator for your feelings and passions. While you definitely want to be successful, the aim is to do so without causing harm to anyone else. Therefore your Angels help you to be persuasive only after finding out what the other person wants or needs.

Sometimes you feel the urge to express yourself in a particular artistic medium. Although you may not sustain this interest long enough to develop expertise, your artistic efforts are deeply satisfying to you and they may grace your home or office, or the homes of family members. If you continue to produce works of art, you may gain a following.

A weakness is the tendency to consider harming others. You may have destructive thoughts, but you never need to act on them. Your Angels help you to channel your energies toward compassion instead of harm.

Another weakness is susceptibility to drugs and alcohol. Here again your meditations with the Angels help you to avoid unnecessary drug use, and to moderate use when drugs are prescribed.

A great strength is your inspired ability to plan grand ventures and then to see them through to completion. Any feelings of inferiority dissipate when you are fully engaged in a project. You magnetically attract just the right people to help you get things under way and approach your goals with few side trips or distractions.

The extent of your compassion is unlimited. As you deepen your awareness of Angelic presence, compassion flows from you to all living things, including the planet itself.

Pluto is Sextile Neptune

With Pluto Sextile Neptune, your life is enriched with opportunities presented by the Angels Metatron and Tamiel. Metatron has been called the King of Angels and the Chief of the Ministering Angels. This Angel is thought to be the pillar of fire the Jews followed in their exodus from Egypt. He is a certain link between you and the divine. Metatron's association with Tamiel, the Angel of Primordial Energies, is extremely powerful.

You undoubtedly experience supernatural events and conditions during your life. Your Angels provide this resource and can help you refine it. Psychic impressions and intuition become second nature to you after a while. You learn to act on intuition in much the same way you would act on advice from your accountant.

One facet of the path of personal integrity for you involves purification of your soul. This means elevating your thoughts above petty jealousy and anger. While you may never overcome negative thinking entirely, working with your Angels will lift you up, step by step, to thoughts of compassion and love. Love overcomes fear and compassion overcomes hatred.

One possible expression of this aspect of your birth chart is that you have at least one extrasensory ability. At first you may experience some confusion in interpreting psychic and intuitive information as it comes to you. You are likely to overcome this confusion once you develop the necessary comprehension of your abilities and thus develop your psychic skills. Meditation each day allows your Angels to contact you more directly to help in this area.

You have the power of a storyteller combined with the wisdom of a seer. You could write fiction or dramatic scripts, and your

poetry can become the liquid fire of inspiration and soothing balm for the soul.

The Sun is Quincunx Neptune

With Sun Quincunx Neptune, adjustments in your life are mediated by the Angels Raphael and Tamiel. When the Angel of Healing and the Angel of Primordial Energy meet, you experience the profound nature of healing in your life. You have probably always experienced a degree of physical protection, and now you cultivate that sense of calm and security in your meditations.

Frail physical health may seem to overshadow your life, particularly in childhood. As you gain emotional and spiritual strength, you find that your physical health also improves, and at the very least your attitude about your physical health becomes more creative.

Profound psychic sensitivity is a natural outcome of communion between Raphael and Tamiel. As you immerse yourself in their messages, you find that psychic awareness becomes keener, and you decipher the messages more easily.

Active imagination is another blessing from this team of Angels. You find that your dreams take on clarity as you meditate on them. Even nightmares take on the cloak of creative possibility as you convert the once terrifying content into creative action.

Enthusiasm becomes your watchword! You engage in all your activities with greater vigor and optimism, and your attitude is contagious. All your family and friends bask in the glow of your cheerful persona.

Idealistic thoughts become the impulse for dynamic action. You find that you are able to anticipate the likely results of your actions, and you then gear your efforts accordingly.

Expect your interest in mysticism to increase. Raphael and Tamiel open your heart to divine possibilities, and guide your personal efforts into the channels of personal integrity.

Saturn is BiQuintile Neptune

With Saturn BiQuintile Neptune, your inner creative capacity emerges from the subconscious as you recognize interaction between Kafziel and Tamiel. Kafziel is the Angel of memory, solitude, and tears. Together these Angels put you on the path of personal integrity as surely as you follow one thought with another.

Your slow growth of understanding could be seen as a weakness. However, your path is one of steady, almost certain forward progress. You analyze and consider each decision and each new idea. In this way every step is firm and solid, not tentative or half-hearted.

Intelligent activity becomes part of your nature. Intelligent activity involves the skillful use and application of knowledge, so you must first gain knowledge before you can apply it effectively. Kafziel and Tamiel work in concert in your life by first supplying the means to learn, and then aiding your mind through dreams or visualizations of how to use the information you have gained.

As you allow your Angels into your life, you gain the capacity to maintain hope in the face of seeming disaster. You discover that even in the most difficult circumstances, you have Angelic protection, and you can find a way to work your way out of the problem.

These Angels help you learn how to manage pain. When you or someone else experience severe physical or emotional pain, your Angels provide the means for relieving its severity, as well as providing the path to resolving it altogether.

Zadkiel and Tamiel provide dreams to help you through life's difficulties. You have tenacity of spirit, and your Angels support its use. Sometimes you will have a conscious idea, and you work step by step to make that dream a reality. Other times dreams provide very direct messages about your life. Either way, your mental strength is a special ally throughout your life.

Chiron is Sesquisquare Neptune

Because there are hosts of Angels directly involved with healing, assigning one Angel to Chiron is no simple task. In fact, the influence of Chiron in healing is similar to that of the Angelic hosts: this planet is a catalyst for healing energies within you, much as the Angelic hosts provide an atmosphere of healing within which you can work. However, the energy of Sariel resonates strongly with Chiron.

With Chiron sesquisquare Neptune, Sariel and Tamiel team up to show you how to move from a state of agitation to a state of restfulness and peace. When an Angel of healing meets the Angel of primordial energy, the potential for positive change is ignited within you. Your capacity to cleanse your body and mind of all impediments to health is greatly strengthened by this powerful duo.

Your capacity to heal reflects the partnership you can develop with your Angels. Two factors are important to note:

There is duality in everything. Any illness, discomfort, or mental aberration reflects one side of a polarity. On the other side you can find health, sanity, and satisfaction. Love casts out fear, for example. Pain can instill compassion. Emotional healing occurs when you go through your suffering instead of denying it. Angelic greetings traditionally have included the words, 'Fear not,' because the removal of fear from your consciousness creates suitable conditions for healing.

Physiology mirrors consciousness. As you learn the subtle connections between your belief, thoughts, and feelings and the physical body, you begin to see how positive, optimistic, creative thoughts produce healthy feelings, while negative, destructive, pessimistic thoughts create feelings of illness. You retain your free will, but your Angels create a condition in which you can more readily choose the enlightened path toward greater wellness.

Meditation can be painful for you at first because your body and mind are so used to rushing around every single moment. Take time to sit and meditate each day. Focus on your breath or on an object helps you gain a sense of space in which your healing can occur easily. Your Angels provide a bridge from your current state to one of greater intuitive understanding of wellness in your life.

Neptune is Square The Midheaven

With Neptune forming a square to your Midheaven, psychic energies in your environment create challenges to your peace of mind and cause distress until you learn to read the messages in terms of yourself. By looking within yourself and opening your mind to angelic support, your Angels can help you to see the value of psychic awareness in terms of your own spiritual progress.

When the world showers you with glamour and other people try to convince you of realities that don't mesh with your own perceptions, your Angels can help you to express compassion for others, while also understanding your own motivations.

On the plus side, Tamiel supports your receptivity, empathy and sensitivity. Awareness of Mind is enhanced through Angelic associations, and your contemplative nature expands as you explore your own ego. This may sound odd, as many spiritual belief systems indicate that ego is to be avoided or quelled. However, if you go through ego issues instead of around them, you are better able to resolve them.

Tamiel also supports you by revealing your greatest mental and emotional weaknesses, so that you may resolve them. For example, you may be susceptible to deception, either from others or through yourself. Your Angels help you to perceive deception and to dispel it.

You have a powerful imagination that can be utilized in the search for self-awareness and spiritual consciousness, and your Angels are there to help you.
